

Business Work Style (BWS) Assessment

Identifying the Best Franchise Business

The **Business Work Style (BWS) Assessment Tool** helps our clients to really figure out their core values, who they are, what they are good at, primary/secondary operating modes etc. It only takes a few minutes to complete.

The BWS Assessment Tool may be found at:

<https://www.zorakle.net/assessment/welcome/tfmentor>

Be sure to enter your **correct email address** when starting the BWS.

You will receive the report right after you take the assessment and it can ultimately help you to choose the right franchise business.

The BWS is a revolutionary assessment that bypasses personality and behavior revealing your unchanging motivational drivers and sense for how you are wired to contribute to the world around you.

Take the assessment now and perhaps learn some things about yourself that you did know and see which character traits are your strongest/weakest – critical information to help you find the right franchise business and ultimately being successful.
